

COMPANY PROFILE

AN INSIGHT TO OUR COMPANY

**GLOBAL
FABRICATION AND
GALVANIZING LLC**

About Us

Global Fabrication and Galvanizing LLC (GFG) established in 2021 is diversified arm of Global Corp Enterprises (GCE) Group catering to Oman's Infrastructure growth since 2007.

GFG is spread across an area of 10,000 Sq. Mtr. in Sumail industrial estate, with installed capacity 12,000 MT p.a.

Infrastructure development is the core of any nation building and a key factor in Sultanate of Oman's future growth. With this goal and as a part of our continuous expansion plan, we are diversifying into fabrication and Galvanizing activities in-turn contributing to major infrastructure segments like Power Transmission and Distribution, Buildings & Factories, Roads & Highways and Oil and Gas.

Our integrated manufacturing unit, Focused management and Committed production & Quality teams will make us the preferred choice for all our customers across products and sectors.

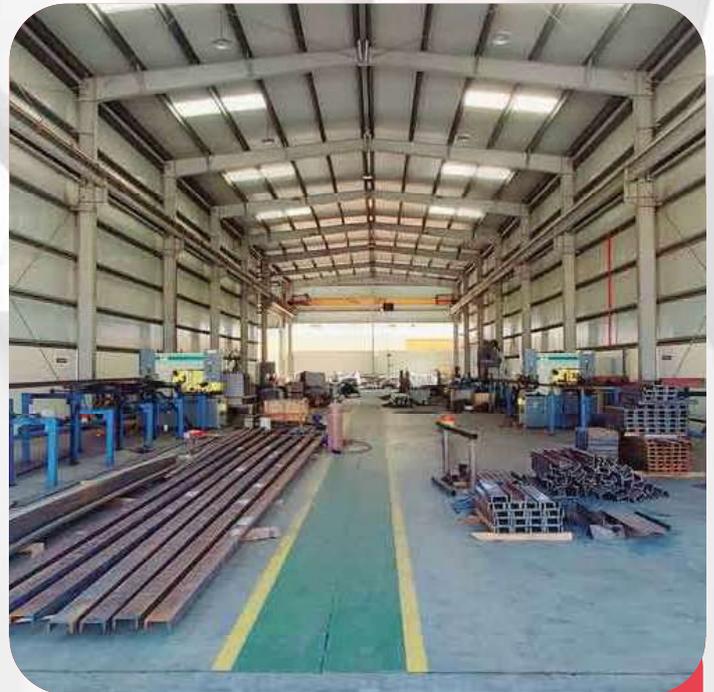

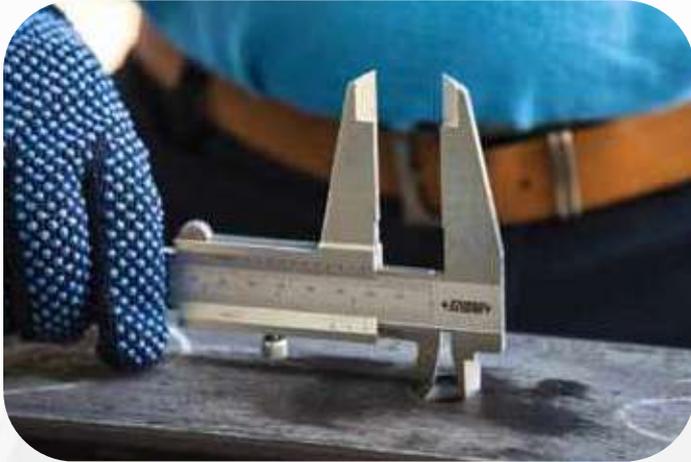

Our Product

- Over Head Line Cross Arms
- Transmission Line Towers
- Countdown Markers
- Solar mount Structures
- Switchyard structures
- Gantry Structures
- OHL Accessories
- Telecom Towers
- Cable trays
- Fabrication and Galvanizing

Our Gallery

Work Process

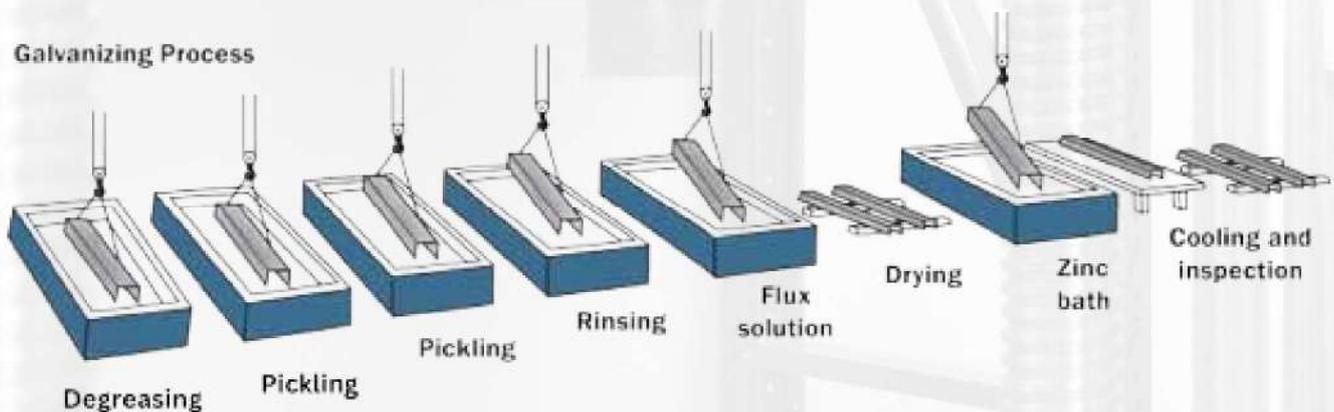

Fabrication

Our production facility for fabrication is well-equipped with cutting-edge machinery, tools, and jig fixtures designed to process steel in compliance with various specifications such as BSEN, ASTM, and ISO. The plant features welding shops and is outfitted with overhead and mobile cranes of varying capacities. Additionally, we house in-house testing facilities for Tensile, hardness, and Charpy impact tests. Our facility also boasts a sandblasting and painting shop.

Galvanizing

In our Galvanizing Plant, we have a high-velocity Galvanizing furnace for hot-dip galvanizing, with a kettle size measuring 6.5 meters by 1 meter by 1.4 meters. Throughout the galvanizing phase, we meticulously follow the complete process illustrated in the accompanying image. The zinc utilized is of special high grade (SHG) with 99.99% purity, adhering to ASTM B6-SHG, Grade Z13001, and ISO 752 standards. Our galvanizing processes align with ISO 1461, ASTM 123, and BS 729 standards. We have an in-house QC lab dedicated to testing galvanized products.

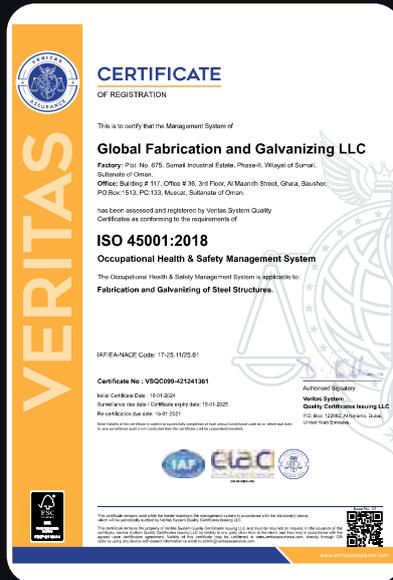

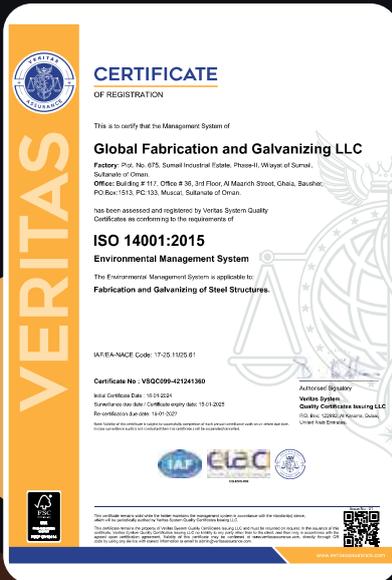

Our commitment to adhering to these high standards ensures the quality and reliability of our fabrication and galvanizing processes.

Our Clients

Certificates

GLOBAL FABRICATION AND GALVANIZING LLC is approved by JSRS. We proudly own certificate for Made in Oman Production. Our products are approved by NAMA, PDO and DCRP Oman.
